

MEMORIALS PRICELIST

The Complete Memorial Service April 2017

We are pleased to present our Making Memories Last brochure and price list.

We have been providing memorials for a number of years now and have many satisfied clients throughout the area. We pride ourselves on the quality and speed of service we offer, our extremely competitive pricing policy and, of course, the quality of the materials and workmanship used.

The brochure depicts many memorial shapes and designs but we would be pleased to discuss your individual requirements. If you see have seen a memorial elsewhere we would be happy to provide a matching one.

Most marble memorials are also available in Yorkshire stone. Granite memorials are available in black, a variety of greys, blues, reds and greens. Other types of stone are also available and our brochure includes memorials specifically designed for the Churchyard. Cemetery and Church authorities each have their own regulations concerning the erection of memorials and we are able to give guidance on these – although each application will be treated by the Burial Authority on its own merits. As a general rule marble and all polished granite are no longer permitted in Churchyards, however all granite memorials are available in a honed finish which is usually acceptable.

The prices shown cover the cost of the memorial shown (usual size 2' 6" high x 2'00" wide overall x 3" thick), erection on a reinforced foundation, stainless steel anchor kit, weighted aluminium flowers container(s), value added tax and the cost of an inscription of up to 70 letters.

The only item not included is the Church or Cemetery fee.

The Leeds City Council Fee for most memorials from April 2017 is **£267.00**

The Church of England Fee for most memorials from January 2017 is **£ 130.00**

If you obtain other quotations, please ensure that you are comparing like with like as many price lists do not include VAT or seventy letters of inscription.

All our memorials are individually manufactured to order and completion of the work may take up to ten weeks from receipt of your signed order, but if you have a special date in mind for completion we will do our best to meet your requirements.

If you have seen a memorial which you like elsewhere we would be happy to quote you for its supply. To try to help to make things easy for our clients we have included a pro forma order form which doubles as a request for a quotation.

Please do not hesitate to contact us for any memorial requirements. We very much hope that we can be of service in providing a fitting and lasting memorial.
