The Complete Memorial Service

We are pleased to present our **Odlings Memorial Collection** brochure and price list.

We have been providing memorials for several years now and have many satisfied clients throughout the area. We pride ourselves on the quality and speed of service we offer, our extremely competitive pricing policy and the quality of the materials and workmanship used.

The brochure depicts many memorial shapes and designs, but we would be pleased to discuss your individual requirements. If you see have seen a memorial elsewhere, we would be happy to provide a quote for a matching one.

Granite memorials are available in black, a variety of greys, blues, reds and greens and are all depicted as All Polished, unless otherwise stated. Other types of stone are also available, and our brochure includes memorials specifically designed for the Churchyard.
Cemetery and Church authorities each have their own regulations concerning the erection of memorials and we can give guidance on these – although each application will be treated by the Burial Authority on its own merits. Generally marble and all polished granite are no longer permitted in Churchyards, however all granite memorials are available in a honed finish which is usually acceptable.

Our prices include the following: the cost of the memorial as depicted in the brochure, including any designs where appropriate, we have quoted based on a standard overall size of 2' 6" high x 2'0" wide x 12" deep; fixing on a reinforced foundation; stainless steel anchor kit; weighted aluminium flower container(s); VAT where applicable and the cost of an inscription up to 100 characters, sandblasted and gilded.

Any exclusions or amendments to this price package will be highlighted

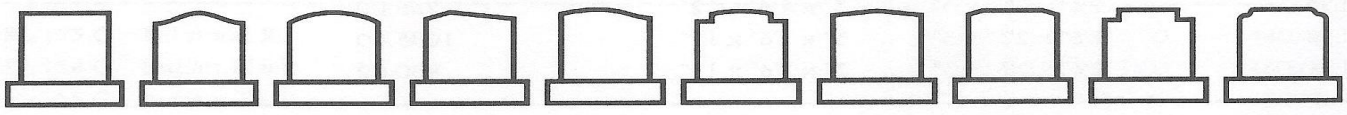

They do not include the Church or Cemetery fees

If you obtain other quotations, please ensure that you are comparing like for like as many price lists do not include VAT or seventy letters of inscription.

All our memorials are individually manufactured to order and completion of the work may take up to twelve weeks from receipt of your payment and signed order confirmation, but if you have a special date in mind for completion, we will do our best to meet your requirements.

Please do not hesitate to contact us for any further information or assistance before making your decision.
